Dear Mr. Wright:

On January 25, 2012, the Policy Board of the Capitol Region Council of Governments voted to endorse the following projects for Congestion Mitigation and Air Quality Program funding, in priority order:

1. Redesign of I-84 and Park Road intersection in West Hartford
2. Realign Griswold/House/Harris intersection in Glastonbury
3. Upgrade or replace 14 traffic signals in Hartford

These projects were selected based on an open solicitation to our member municipalities, and priorities were developed based generally on the criteria described in your *CMAQ Program Guide for Regional Planning Organizations*.

Three copies of each project application are included with this letter. Each application includes the requisite letter or resolution of commitment to own operate and maintain the project, and provide the local share of funding, if appropriate. A SEAFORM is also available for the traffic signal application.

Please contact Jennifer Carrier or Karen Olson of my staff, if you need any additional information for any of these project proposals. We are committed to assisting you in your analysis of the projects, and with moving selected projects forward to completion.

Sincerely,

Lyle D. Wray, PhD
Executive Director
